  </syncbar>
</process>
```

The XML code defines a process named "Serial & Parallel". It contains four activities: "Serial 1", "Parallel 1", "Parallel 2", and "Serial 2". Each activity has specific duration definitions. The process also includes four syncbars: "SyncBarH1" and "SyncBarH2", which connect the activities in a specific sequence. Braces on the left side of the code group elements by their IDs: 4702 groups the first two activities, 4706 groups the next two, 4708 groups the next two, and 4714 groups all four activities along with the syncbars.

```

The diagram illustrates the structure of an XML process definition for an Assembly Workflow. The root element is a process group named "AssemblyWorkflow". It contains several activities and a logic block, each associated with a unique ID and responsible role. The activities include "Get Parts", "Left", "Left Special", "Right", "Complete Assembly", "Get Fasteners", and a logic block for determining handedness. The logic block uses a script to check if "approved()". Predecessors and successors for each activity are defined, along with various optimization parameters like minplans and max-percentage. The XML is annotated with numbers (6800, 6802, 6804, 6810, 6812, 6814, 6816, 6820, 6822, 6824, 6826, 6828, 6830, 6832, 6834, 6836, 6838) and arrows indicating relationships between elements.

FIG. 71

The diagram illustrates the structure of an XML document with various annotations:

- Annotation 7100 points to the start of the XML declaration: <?xml version="1.0" encoding="UTF-8" ?>
- Annotation 7102 is a brace spanning the first two user entries.
- Annotation 7104 is a brace spanning the second two user entries.
- Annotation 7106 is a brace spanning the third two user entries.
- Annotations 7108, 7110, 7112, and 7114 are braces grouping specific attributes for each user entry.
- Annotations 7116 and 7118 are braces grouping skillref elements for each user entry.
- Annotations 7120, 7122, 7124, and 7126 are braces grouping the entire user element for each user entry.
- Annotations 7128, 7130, 7132, 7134, 7140, 7142, 7144, and 7146 are braces grouping specific attributes for each skillref element.
- Annotations 7136, 7138, and 7142 are braces grouping the max-percent-assignments attributes for each user entry.
